- ^{4.1)} Please identify what you perceive to be the real strengths and weaknesses of this teaching assistant and course.
- Britany is awesome. She is one of the best TA I have ever met at UCLA. She is knowledgeable about all the material, and she cares about her students. She is always well-prepared for the section and patient about all the questions she might get. She even allows us to attend her other sections if we have to miss our morning section. I hope that she can be one of the faculty members at UCLA, and it would be great that if TAs could be the lecturer and participate more in the lecture. I wish all the best for her doctoral degree and her potential in teaching.
 - Brittany helped students understand the concepts taught in class by going deeper and providing outside knowledge and experiences. She always had a positive attitude and tried her best to help us prepare for assignments and exams. I would recommend her discussion section to my peers because she is an excellent instructor. Thank you!
 - Brittany is absolutely amazing and super engaging. It is never a boring discussion section in how she relates the class material with her work with chimps. She is caring and compassionate when trying to help students understand what is important to know for exams
