19 - What aspects of the course worked well for you?	
Response Rate	3/6 (50%)
<ul style="list-style-type: none"> • They made sure to tell students what was expected of them. • I really enjoyed everything about this course. I think the structure was perfect and the professors were very enthusiastic about the class, which made it easy for me to be enthusiastic and enjoy it. Drs. Jones and Florie were also very clear and concise on the rules and standards we needed to follow since we worked with animals that had troubled pasts and they made sure we understood the harm we could cause if we did not try. • I enjoyed the hands on experience and how tight knit the class was. I think a small group helped a lot with engagement and feeling included. 	

20 - What aspects of the course, if any, didn't work well for you?	
Response Rate	3/6 (50%)
<ul style="list-style-type: none"> • None • The pacing of the course was a little difficult for me. I believe that we should've gone to implement enrichment earlier in the year and spent more time on building enrichment rather than lectures. Having a ton of long assignments at the end of the year was difficult to manage with the rest of my classes. • I think having more assignments to turn stuff in so that people are more on top of their coding would be beneficial to the class.

---------------	--------------

- I enjoyed the course very much.
- I think working with the refuge is one of my greatest memories at Lyon. It's amazing to have professors that can offer this class for students and deliver it in a way that makes them feel like they are making a difference in the lives of another individual (i.e. the animals at the refuge).
- Overall, I loved this course. I think it's important and useful for anyone wishing to go into any animal based career.
- I think that there should be no official partners in the class, and instead the whole class just help out everyone. The partners turn into one person does this animal and the other does the other animal.
