**Question: What are the best features of this course?**

**Response Rate: 80.00%** (4 of 5)

- 1 The professor has both knowledge and experience in this topic which shows in how passionate she teaches it. She is really engaging which makes students want to learn about what she has to say. 
- 2 The best feature of this course is how the schedule is structured to better help us prepare our final presentations and papers. Additionally, the quick grading is very much appreciated. 
- 3 I think Dr. Florkie's excitement leads to the students being more ready to learn and ask questions, so I believe her teaching is the best feature. 
- 4 Dr. Florkie is an incredibly enthusiastic teacher. The activities and discussions she fosters help the topics and ideas stick much better in my head than if I was just sitting around and listening to a lecture at 8 in the morning. 

**Question: Do you have any suggestions for improvement of the course?**

**Response Rate: 60.00%** (3 of 5)

- 1 This is a personal thing, but I do enjoy quizzes and the occasional exam. I think they help me check in with my own knowledge and make sure I have a clear understanding of the course material. It can also be a good way for a professor to figure out what topics they might not have covered in as much detail as they would like. To fit in with how the rest of the class is structured, maybe the quizzes exams could be open note and/or collaborative. 
- 2 My only suggestion is that for the final paper in the class I think students would have benefited from a couple of paper workshop days throughout the semester so that we are more prepared with writing it how it should be written. 
- 3 I think it could potentially be a little more rigorous. It is structured really well, however, I think that expectations could be slightly higher for students. 

**Question: Do you have any additional comments on this course and/or the instructor?**

**Response Rate: 20.00%** (1 of 5)

- 1 Thanks for a great year Dr. Florkie! This class was a delight.
