19 - What aspects of the course worked well for you?

Response Rate	5/13 (38.46%)

- Having recorded lectures was nice instead of having meetings we'd have to attend so we could work at our own pace. I also liked the exams being open note.
- Everything!
- All
- I made sure to listen to my lectures within the first two days beginning of the week and do my assignments and would go back when I needed reassurance and help.
- The homework format and depth helped prepare for upcoming exams at the end of each week.

20 - What aspects of the course, if any, didn't work well for you?

Response Rate	5/13 (38.46%)

- I wish we had access to the slides in files to make in-text citations on exams easier. You either had to write the slide number in your notes beforehand or try to count the slides in the lecture when there were sometimes 50+ slides.
- N/A

- N/A
- It was difficult for me to find time in the schedule for our independent animal article's. I felt that I needed more of an example to guide my efforts towards for me to be confident in my work. It took me a long time to attempt to arrange the work throughout my confusion, but I also just struggle personally reaching out for help. I was a little overwhelmed with the summer schedule. I believe that Dr. Florkie would have helped me if I would have been able to anticipate the issue. I am only able to recognize the pattern now looking back.

21 - Please share anything else you would like to about the course, the instructor, or the material.

Response Rate	4/13 (30.77%)

- n/a
- This class is amazing!
- I enjoyed this class and the instructions were clear and understandable.
- Fabulous class! I really enjoyed learning about so many factors that work within our body and how they all have such a amazing relationship.
