<b>Question:</b>	<b>What are the best features of this course?</b>
<b>Response Rate:</b>	<b>66.67%</b> (6 of 9)

1	The way the material is presented	
2	The professor is so personable. I know I can come to her with anything. It doesn't feel awkward or embarrassing to come to her office and ask her for help. She is willing to help students out as much as she can, whenever she can. Her in class examples are also very fun and engaging. SHE IS THE FASTEST GRADER I KNOW... I wish more professors would take notes from her.	
3	It is cool learning how the body relays sensory information to the brain.	
4	I absolutely loved the different Learning Activities and labs built into the various topics. I feel like they each helped me understand the topic better and was so much fun to complete in class. I also loved the Mini Projects because that allowed me to apply the concepts discussed in class to real life scenarios.	
5	Dr. Florkiewicz is super enthusiastic and is always available outside of class to look over papers, help with assignments, etc., Always answers emails in a decent amount of time. Study guides help immensely on exams	
6	Dr. Florkie! She is so fun and engaging in class. It's hard not to learn something from her! She always makes sure that we are more than well-prepared for every exam! Her energy also wakes me up every morning. The learning activities allow practicing the new information from class and the projects are fun ways to go back over topics from class.
