Question: What are the best features of this course?

Response Rate: 87.50% (7 of 8)

- The best feature of this choice is getting a team-taught course. I think this helps students form relationships with all professors in the major which will help them in the future as well. The course itself is also nice in the fact that it helps students know and understand their options with their degree, something I think every major could benefit from.
- 1 the major which will help them in the future as well. The course itself is also nice in the fact that it helps students know and understand their options with their degree, something I think every major could benefit from.
 - 2 Talking to people in graduate school.
 - 3 N/A
 - 4 It's helpful for the future
 - 5 I liked the fact that we prepared our materials for grad school as homework for this course. Now when I start to apply I have a portfolio full of useful documents to use.
 - 6 Having a class oriented around after graduation and the steps to take during undergrad is, in general, a good idea. I feel more well-prepared than I did before taking this course.
 - 7 All the material is really helpful. Very useful class for our future.

Question: Do you have any suggestions for improvement of the course?

Response Rate: 62.50% (5 of 8)

- 1 The class period with career services was a bit of a disappointment. Perhaps have the psych faculty make their own presentation or maybe ask for something a little more thought out than what we were presented.
- 2 No
- 3 No.
- 4 No, I thought this course was excellent.
- 5 N/A

Question: Do you have any additional comments on this course and/or the instructor?

Response Rate: 62.50% (5 of 8)

- Would it be possible to introduce the idea of this course to other majors? I think that the biology major could really benefit from this,
- 1 especially with how focused on healthcare careers our bio program tends to be. Letting students know other options and forcing them to prepare materials for future schooling is very beneficial for any student, in any major.
 - 2 This was a very helpful course.
 - 3 No
 - 4 No.
