19 - What aspects of the course worked well for you?	
Response Rate	7/18 (38.89%)
<ul style="list-style-type: none"> • The teaching style was good. • I loved how flexible and understanding Dr. Florkie was. • The article discussions were engaging and a good opportunity to talk through content as a class. • I like when she was not always lecturing and gave us other things to do. • Reading and critiquing articles individually • I really enjoyed the mix of both lectures, and article discussions in class as well as as the essays for special topics as they helped students refine their skills in analyzing papers and better engage with the material • Having to hand write everything (discussions, essays, quizzes) has helped me to actually learn and remember key information. 	

20 - What aspects of the course, if any, didn't work well for you?	
Response Rate	5/18 (27.78%)
<ul style="list-style-type: none"> • Nothing • The only issue was Dr. Florkie getting injured and the class having to become online for a portion of the semester. • Can't think of any. • Only three open response questions for exams was a little stressful but made sense since it is a lot of theoretical material • This course did not have any drawbacks.

- As per usual, I loved this class with Dr. Florkie. Great blend of both learning and fun :) despite all the complications with your broken leg, I felt you went above and beyond of putting students first and prioritizing our learning. Thanks for a wonderful semester
- This course had quite a few setbacks (her injury and having to meet via Zoom), but we were always provided with excellent instructions and material taught.
