<b>Question:</b>	What aspects of the course worked well for you?
<b>Response Rate:</b>	60.00% (3 of 5)

1	Teacher explain concepts and ideas clearly and provided multiple examples.	
2	I was challenged by our discussions and the articles we reviewed, however I think it made me a better psychology student. I have been finding connections between this course's content and other courses that do not traditionally cover evolutionary psychology content.	
3	Dr. Florkie was very interested and knowledgeable about the class topic. She was very understanding and kind with extensions and her teaching style worked well for me.	

<b>Question:</b>	<b>What aspects of the course, if any, didn't work for you?</b>
<b>Response Rate:</b>	<b>60.00% (3 of 5)</b>

1	This is a very challenging course for primarily psychology students compared to primarily anthropology or animal behavior students. I'm unsure how this course could be changed to help introduce psychology students to the course content more smoothly, however it would be helpful to incorporate some evolutionary psychology concepts into some of the intro psychology courses.	
2	I cannot think of any.	
3	I can not think of anything that I did not like or that did not work for me.	

<b>Question:</b>	<b>Please share anything else you would like to about the course, the instructor, or the material.</b>
<b>Response Rate:</b>	<b>40.00% (2 of 5)</b>

1	I feel that we could have gotten a better understanding of good and bad evolutionary psychology if Dr. Florkie was able to present us with more disturbing examples of what bad Evo Psych is.	
2	I cannot think of any.
