Response Rate:	87.50% (14 of 16)

1	This class was heavily focused on discussion, and I enjoyed hearing others' viewpoints.	
2	The way the assignments were designed and the group projects and debates.	
3	The teaching style I was able to follow.	
4	The professor	
5	The lectures are very detailed and informative. In addition, the assignments helped build on what was being learned in that week. All assignments prepared me for the final paper.	
6	The assignments and set up of course work	
7	She did a goof amount of group work and i really enjoyed that.	
8	It was fun participating in class	
9	I think the writing assignments helped me have a better understanding of the material.	
10	I really liked that there are papers instead of exams.	
11	I really enjoyed the group work that was involved in this course. It allowed to hear many different opinions of the class and made me think in different ways about a subject.	
12	I loved the group work we did throughout the semester because it made it more fun.	
13	I loved the learning activities! I learn best when we actively apply the course concepts to assignments, group activities, discussions, etc. so this aspect worked very well for me.	
14	I enjoyed how much collaborative work we did both in and outside of class. It was challenging, but moments like our passionate debates and presenting our ideas both to and with our peers made the class more memorable.	

Question:	What aspects of the course, if any, didn't work for you?
Response Rate:	81.25% (13 of 16)

1	none	
2	The relating to our own pets	
3	The only thing that didn't end up working for me was the TR schedule, but that's a "me" problem.	
4	The actual lecture portion of the class was mostly common sense and could have been summarized into a 5 min lecture instead of 1hr	
5	Nothing that I knew of.	
6	Not really	
7	Na	

8	N/A	
9	N/A	
10	I wish that the mini written assignments were broken up more. I felt that I needed to write at least twice as much as the minimum page requirement to cover all of the required information properly.	
11	I did not like the mini written assignments being so spaced out, but they were not extremely difficult to do.	
12	I did not work well with all of the Group projects that we had to do throughout the class, I personally felt that there were to many.	
13	I did not like how early the course was. It made it difficult to get up and really enjoy this great course.
